Contains - Product contains stated allergen as a deliberate ingredient in the recipe or as a processing aid;

May Contain - Allergen is not a deliberate ingredient. However, following risk assessment there is a probable risk of cross-contamination and this is detailed on the product packaging. This includes 'Made in a factory that also handles x allergen' or similar statements;

Does Not Contain - The product does not contain the specific allergen as an ingredient and following risk assessment it has been determined, that the risk of cross contamination is remote and has been appropriately controlled. This is not a 'free from' claim as there is still a remote risk of cross contamination and it is not an

Contains - Product contains stated allergen as a deliberate ingredient in the recipe or as a processing aid;

May Contain - Allergen in not a deliberate ingredient. However, following risk assessment there is a probable risk of cross-contamination and this is detailed on the product packaging. This includes: Made in a factory that also handles x allergen' or similar statements;

Does NOC Contain - The product does not contain the specific allergen as an ingredient and following risk assessment it has been determined, that the risk of cross contamination is remote only has been appropriately controlled. This is not a "Free from" claim as there is still a remote risk of cross contamination and it is not an absolute which has been scientifically to address in a contamination and risk of cross contamination and risk in a contamination and risk of cross contamination and risk in a contamina
